## ADAM & RACHAEL HUESSER

**OWNERS OF VORTEX SUPPLY LLC.** 

### **ABOUT OUR JOURNEY:**

Established in 2015 by Adam and Rachael Huesser, Vortex Supply LLC began as a small distribution company of concrete floor grinders. Prior to owning a business, Adam spent 11 years working in the flooring industry, while Rachael prioritized raising their four children: Ryan, Hannah, Emma, and Lydia. After many challenging years and careful deliberation, they decided to kickstart their business venture with a financial partner in 2015. With only two employees, three pieces of equipment, and a passion for customer service, their business began to grow. This ultimately led to the end of their financial partnership in 2019, allowing for more creative freedom of what Vortex Supply LLC is known as today. Above all, through the highs and lows, Adam and Rachael have remained true to each other, their faith in God, and their commitment to building a better future for their family and employees.

### Thank you. from Adam & Rachael
